

GREEN SCRUBBING PAD

Features:

- Designed to deep scrub floor finish to prepare the floor surface for refinishing
- Consistent performance over pad life
- Use on standard, low speed automatic scrubbers and rotary floor machines

Description

This product is an extra heavy duty floor-scrubbing pad made of polyester and nylon fibers. Abrasive particles are dispersed throughout and bonded to the non-woven construction with a durable adhesive. The pads are nominally one inch thick and available in various sizes.

Use

The product is used with a neutral or general purpose cleaner to scrub hard surface floors and remove two to three coats of floor finish. The product is normally used on low speed rotary floor machines (175-600 rpm) or automatic scrubbers. The product is also used for dry scrubbing floors or heavy duty spray cleaning.

TECHNICAL INFORMATION	
Fibers:	Nylon/Polyester blend
Sizes:	Available in a variety of common sizes
Thickness:	1" nominal
Center Hole:	3.25"
Recycle Content of Packaging:	Packaging consists of 50-100% recycled materials and is 100% recyclable
